

# DO Something WILD!!!

**Sponsor one of our  
animal ambassadors**

**W.E.R.C.**

**Wildlife Education and Rehabilitation Center**

P.O. Box 1105, Morgan Hill, CA 95038-1105

Telephone & fax: (408) 779-WERC (9372)

Email: [werc@werc-ca.org](mailto:werc@werc-ca.org)

Website: [www.werc-ca.org](http://www.werc-ca.org)

Sponsor the animal of your choice through Wildlife Education & Rehabilitation Center's *Sponsor an Animal* program and you will help to provide for the day to day care of our education animals. You sponsorship will not only help the animal you are sponsoring, but also help native wildlife that has come to the Wildlife Education & Rehabilitation Center because it is injured, orphaned, or sick.

This gift of life is wonderful for family, friends, or even for yourself. The WERC animal sponsorship also makes a great classroom experience!

## Why Sponsor an Animal?

Your support will help us take care of your sponsored animal. In addition to caring for native wildlife, W.E.R.C. provides many ancillary services critical to the preservation of native wildlife and of assistance to our human community co-existing within their habitat; your support will help us continue to provide these services.

## Here's how to sponsor an animal!

1. Look at the list of animals available for sponsorship.
2. Fill out the sponsorship information form on back.
3. Send the form and your sponsorship donation to W.E.R.C., P.O. Box 1105 Morgan Hill, CA 95038-1105

## What you get for your sponsorship?

1. Information sheet with interesting "fun facts" about your sponsored animal.
2. An official certificate with color picture of your sponsored animal good for one year.
3. The thanks of W.E.R.C. and all of the native wildlife we work together to help.

Gift From (optional) \_\_\_\_\_

(Please use separate sheet for each animal)

## Animal I wish to sponsor:

## “Whoooo” is WERC?

W.E.R.C., the Wildlife Education and Rehabilitation Center in Morgan Hill, Ca. is a registered 501(c) (3) non-profit organization that provides rehabilitative services for orphaned, sick, and injured local native wildlife before returning them to their natural habitats. Through our educational outreach programs, W.E.R.C. encourages peaceful coexistence between civilization and wildlife. Nationally and internationally known for its innovative wildlife rehabilitation program, W.E.R.C.'s experience in successfully rehabilitating and releasing wildlife back into the wild gives this organization a deeper understanding of the animals, which further enhances the classroom experience. W.E.R.C. is state and federally licensed to provide rehabilitation and wildlife education. Please keep wildlife wild!

All of W.E.R.C.'s animal ambassadors are non-releasable wildlife due to injuries or interaction with humans that has made them unable to survive if released back into the wild. These animals have dedicated their time to educating the public at both schools and special events in order to educate the public about their ecosystem, needs, and habits. To learn more about our educational programs, visit our website: [www.werc-ca.org](http://www.werc-ca.org)

All resident animals at W.E.R.C. are very well cared for. But, like all living animals, changes sometimes occur; such as illness or death. If such events occur, we will transfer your support to another animal here at W.E.R.C. All gifts to this program are tax deductible

W.E.R.C. facilities are not open to the general public. Sponsor viewing may take place at one of our many public events happening throughout the year.
